INFORMED CONSENT FOR CARE

By signing below, I hereby request and consent to the performance of acupuncture, massage therapy, and/or nutrition/health counseling treatments and other procedures within the scope of the practice of these respective forms of care on me (or on the patient named below, for whom I am legally responsible) by a licensed practitioner in the practice listed above. I understand that acupuncturists and massage therapists are not primary care providers and that regular primary care by a licensed physician is an important choice that is strongly recommended.

I understand that acupuncture is performed by the insertion of single use, sterile needles through the skin, at certain points on or near the surface of the body in an attempt to treat bodily dysfunction or diseases, to modify or prevent pain perception, and to normalize the body's physiological functions. I understand that methods of treatment related to acupuncture may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Chinese massage), Chinese herbal medicine, and nutritional counseling. I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may be an unpleasant smell or taste. I will immediately notify a member of the clinical staff of any unanticipated or unpleasant effects associated with the consumption of the herbs.

Acupuncture typically involves safe methods of treatment, however, certain adverse side effects may result. These unusual side effects could include, but are not limited to, minor bruising or bleeding, soreness, numbness or tingling near the needling sites that may last a few days, dizziness, fainting, infection, spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Burns and/or scarring are a potential risk of moxibustion and cupping, or when treatment involves the use of heat lamps. Bruising is a common side effect of cupping. The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue. I will notify a clinical staff member who is caring for me if I am or become pregnant. I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the clinical staff to exercise judgment during the course of treatment. I understand that results are not guaranteed and that I am free to stop the treatment at any time. I understand that while this document describes the major risks of treatment, albeit rare, there are other side effects that may occur.

I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have carefully read, or have had read to me, all of the above information and have been told about the risks and benefits of acupuncture, massage therapy, and other procedures. I have had an opportunity to ask questions and am fully aware of what I am signing. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.

FINANCIAL POLICY

We are dedicated to providing you with the highest quality of healthcare. Beyond the practice of medicine, all healthcare providers are faced with the task of working with many different insurance companies who help coordinate your care and meet your medical financial responsibilities. By signing this form, you acknowledge your financial responsibility, including your responsibility to be aware of what your insurance does and does not pay for, as well as any patient responsibility amounts. We are happy to assist you in this process.

Retaining Credit Cards on File

Our office requires retention of an active credit or debit card on file to bill any balances. Health Savings and Flexible Spending cards are acceptable forms of payment, though we will require an additional card on file in case the available funds on those cards have been exhausted. All credit card information is encrypted and stored securely.

Self-Pay

Payment is due in full at the time of your appointment unless you have elected to pre-pay for services. We accept cash, check and credit card payments. There will be a \$30 fee for a returned check.

Private Insurance

We currently accept and process for participating Aetna, Blue Cross Blue Shield, United Healthcare, and Cigna plans that cover acupuncture. We will also process when Medicare is primary and one of the aforenamed insurance providers is secondary. If you change insurance companies or employers, or your policy is updated or changed, you agree to provide this office with the current information immediately. If benefits are determined through your policy but you do not wish to process through your insurance, you have the option to sign an insurance waiver provided by our office and pay the self-pay rate instead.

Copavs and Co-Insurance

If you have a policy that identifies a flat copay or percentage-based co-insurance, we will collect the estimated patient responsibility at the time of service.

Deductible Patient Responsibility and Outstanding Balances

Some services may not be covered by your insurance plan, may process to your deductible or may require an additional stated amount under patient responsibility. Your deductible is the amount your insurance company requires you to pay out of pocket prior to coverage. As a participating provider with your plan, all balances are due in full upon our receipt of Explanation of Benefits (EOB) from your insurance company, including deductible or additional copay, coinsurance or additional fees assigned to you by your insurance company. Any balances on your account from prior visits after insurance processing, are due at your next appointment or will be reconciled at the month's end and charged to your credit card on file.

Worker's Compensation and Motor Vehicle Accidents/Personal Injury

In a case where a third party may be liable for payment of your bills, you are responsible for your charges and we require payment in full at the time of service. We can provide you with a superbill insurance receipt upon request. We will not sign a Doctor's Lien with your attorney. We are not permitted to bill your private insurance for these services unless subrogation has been identified in writing between your private insurance and your worker's comp/personal injury insurance companies.

Office Records

A \$25 fee will be assessed for a compilation of your medical records.

Missed Appointments

To ensure that the most people can receive care when needed, we require notification of any appointment changes 24 hours in advance of your appointment. A \$50 fee will be assessed for any missed appointments or cancellations with less than 24-hour notice. Any cancelled/missed appointments are best to reschedule within the week to maximize your benefit of care and follow the treatment pan your Provider has outlined for you.

"Health care operations" mean those administrative and managerial functions that we must do to run our office. Examples of how we use or disclose your health information for health care operations are: financial or billing audits; internal quality assurance; personnel decisions; participation in managed care plans; defense of legal matters; business planning; and outside storage of our records.

APPOINTMENT REMINDERS, TREATMENT ALTERNATIVES AND HEALTH RELATED BENEFITS AND SERVICES. We may contact you to provide appointment reminders or information about treatment alternatives or other health-related benefits and services that may be of interest to you. We may also leave voicemail messages, emails or text messages unless indicated otherwise.

INDIVIDUALS INVOLVED IN YOUR CARE OR PAYMENT FOR YOUR CARE. When appropriate, we may share Health Information with a person who is involved in your medical care or payment for your care, such as your family member or close friend. Proper authorization for release of information to persons other than the patient or getting copies of your health information from another professional that you may have seen before us will be given by written consent from the patient.

For example, a research project may involve comparing the health of patients who received one treatment to those who received another, for the same condition. In this situation, your name will not be used without permission, only the results of the treatment.
